

## Additive Of Borchers

Thank you for reading **additive of borchers**. Maybe you have knowledge that, people have look numerous times for their favorite novels like this additive of borchers, but end up in harmful downloads.

Rather than enjoying a good book with a cup of tea in the afternoon, instead they are facing with some malicious bugs inside their desktop computer.

additive of borchers is available in our book collection an online access to it is set as public so you can download it instantly. Our books collection saves in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the additive of borchers is universally compatible with any devices to read

We are a general bookseller, free access download ebook. Our stock of books range from general children's school books to secondary and university education textbooks, self-help titles to large of topics to read.

### Additive Of Borchers

Additive OF Physical Characteristics Appearance Clear colorless liquid Density 0.89 g/cm<sup>3</sup> Color APHA: Max. 20, ISO 6271

Features Low viscosity Eliminates moisture in solvent-based 1K and 2K polyurethane coatings Compatible with most polyol...

polyurethane formulations Additive TI should be added to the dispersion phase to remove any water present and then Additive OF should be added in the letdown Additive OF borchers

## **Physical Characteristics Features - Borchers**

Additive OF by Borchers is a low-viscosity, 100% active, moisture scavenger that eliminates moisture in solvent-based one- and two-component polyurethane coatings during shelf life. It is compatible with most polyol and isocyanate components. The recommended usage level of Additive OF is 1-3 % as supplied based on the total weight of the coating.

Product identifier Additive OF Other means of identification None. ... Company Name Borchers Americas, Inc. Address 240 Two Mile Run Road Venango County Franklin, PA 16323 USA Telephone 814-432-2125 (Customer Service, R&D and Sales: 440-899-2950) Website [www.borchers.com](http://www.borchers.com) E-mail [SDS@borchers.com](mailto:SDS@borchers.com)

## **SAFETY DATA SHEET - Borchers**

Additive TI by Borchers is a 100% active, moisture scavenger that removes moisture. It is introduced with solvents, pigments, and fillers in one- and two-component polyurethane solvent-based coating systems in production. Additive TI is a low viscosity, monofunctional isocyanate which chemically reacts with water to form an inert amide.

## **Additive TI - Borchers - datasheet - Coatings Ingredients**

Add Additive TI at a rate of 0.5 - 4.0 % of the total weight of the formula if the moisture content of the coating is 0.05 - 0.30 %. Do not add the polyol or isocyanate to the batch for 24 hours to complete the moisture elimination reaction. A surplus of Additive TI can react with polyols.
