Scopes Trial The Spotlight On

Part of the Spotlight on American History series, The Scopes Trial is a clear, if lackluster, account of the events leading up to, and the historical significance of, the 1925 Scopes Trial in Dayton, Tenn. When 24-year-old John Scopes, football coach and math teacher at the Rhea County Central High School, substituted for the regular science teacher at the end of a term, he had no idea he was about to make history.

The Scopes Trial. In March 1925, the Tennessee legislature passed a measure known as the Butler Act that made it illegal for teachers in the public schools to present as factual any theory of creation other than the biblical account. This law, of course, was aimed at English biologist Charles Darwin’s theory of evolution, which was grossly distorted in the public mind to assume that man had descended from apes.
