### 'The ends of the earth' - meaning and origin.

To the Ends of the Earth is the name given to a trilogy of nautical, relational novels—Rites of Passage, Close Quarters, and Fire Down Below —by British author William Golding. Set on a former British man-of-war transporting migrants to Australia in the early 19th century, the novels explore themes of class and man's reversion to savagery when isolated, in this case, the closed society of the ship's passengers and crew. The first of the books, Rites of Passage, was awarded the Man Booker ...

### To the Ends of the Earth - Wikipedia

The biological and geological future of Earth can be extrapolated based upon the estimated effects of several long-term influences. These include the chemistry at Earth's surface, the rate of cooling of the planet's interior, the gravitational interactions with other objects in the Solar System, and a steady increase in the Sun's luminosity.An uncertain factor in this extrapolation is the ...
