Tools, Textiles and Contexts (TTC) The geographical and chronological framework is the Central and Eastern Mediterranean in the 3rd and 2nd millennia BC. This was the period when textile production rapidly developed from household production to standardised, industrialised, centralised production, on the basis of a division of labour.

Tools and Textiles - University of Copenhagen

The Tools and Textiles - Texts and Contexts program analyses and discusses the parameters for and the impact on society of the development of this intensive, industry-like production. We aim to reveal how tools and technology developed to meet the new demands. In many previous studies the approach remains descriptive.
